

# Turlach Ur

PIPE BAND

## Second Annual Turlach Ur Scottish Drumming Clinic

Grinnell, Iowa  
June 24 and June 25

Don't miss this opportunity to explore the challenging style of drumming that, as much as the bagpipes themselves, gives a pipe band its extraordinary sound. Participants will learn fundamental skills and concepts from a Scottish drumming perspective. These will include stick handling and control, rudiments, music reading and practice techniques and habits. Depending upon level and progress, participants also will undertake more advanced rudiment work, learn simple march scores and study the Scottish drumming idiom and how it relates to bagpipe melodies and rhythms.

Instructor Malcolm Rosenberger is widely acknowledged as one of the top Scottish snare drummers in North America. As a solo competitor, he turned professional at the age of 16 and won the western U.S. open championship five years in a row, retiring the trophy. More recently, Rosenberger has focused on competitive pipe band drumming. In more than 200 band contests, the corps he has led have a win rate of more than 95 per cent. He is well known not only for his technical mastery, but also for the innovativeness of his original scores. Many of Rosenberger's hundreds of students have gone on to success as solo competitors or to lead their own pipe band drum corps.
